**OPERATIONAL AND FINANCIAL PERFORMANCE:**

During the Financial Year 2013-14, the Plant produced 26,460 MTs (previous year 66,564 MTs), which works out to 36% (approx.) capacity utilisation. Sales during the year were 29,157 MTs (previous year 64,407 MTs). Lower production was due to non-supply of Propylene by HPCL for revamp of Propylene Recovery Unit (PRU) in the 1<sup>st</sup> quarter to enhance Propylene production capacity that resulted in shutdown of our Plant for 58 days and a fire accident on 23<sup>rd</sup> August, 2013 in HPCL's cooling tower that resulted in shutdown of PRU during most part of the remaining period in this year. Company had incurred a net loss of Rs.25.67 crores during the current Financial Year 2013-14 against profit after tax of Rs.3.12 crores made during the previous year. This is mainly due to non-availability of Propylene for a long period resulting in 212 days production loss.

## **The Andhra Petrochemicals Limited**

### **MANAGEMENT DISCUSSION AND ANALYSIS:**

#### **INDUSTRY STRUCTURE AND DEVELOPMENTS:**

Plant operations were limited throughout the year based on availability of Propylene, the major raw material from M/s Hindustan Petroleum Corporation Limited (HPCL). During the year HPCL have implemented their Propylene Recovery Unit (PRU) expansion in May-June, 2013 with a long shut-down which was expected to remove supply constraint to your Company ever since post Modernisation and Expansion. In fact, the Company operated at 110% of designed capacity for a period of 1 ½ months covering July-August, 2013 after HPCL's PRU commissioning post Expansion. Further Propylene supply position had a major setback due to a major fire accident in HPCL which affected PRU and partially continuing till date. As a result Company's Plant operations and marketing suffered to a great extent that resulted in poor performance for the year under review.

Propylene prices also shot up considerably during certain months with the steepest ever increase in the month of January, 2014. This together with lower market selling prices for the products resulted in under-recoveries that affected Company's performance. HPCL achieving full potential of the PRU is likely to take another 6 to 7 months, after which the Company's performance is expected to improve, subject to products' selling prices.

#### **OPPORTUNITIES AND THREATS:**

HPCL realising full potential of PRU and the Company operations at its full capacity and resultant improved efficiencies and lower cost of production is expected to be favourable for the Company's performance in future. The new capacities that have come up and further capacities coming up in the international scenario, likely strengthening of Rupee against dollar are areas of concern likely to impact, to some extent, Company's performance in the months to come.

#### **INTERNAL CONTROL SYSTEMS:**

Your Company has time-tested, exhaustive internal control systems for all major departments covering entire business. Internal audit by an external reputed audit firm scrutinises internal control systems in all the areas for their effectiveness and comes out with suggestions for improvement. Further Audit Committee of the Board reviews such internal audit reports and ensures effectiveness of the internal control systems.

#### **HUMAN RESOURCES AND INDUSTRIAL RELATIONS:**

Your Company has excellent track record on Industrial Relations front. The Management is committed to motivating employees at all levels by way of continuous performance improvement programmes. Training programmes are conducted for different levels of employees for upgrading their skills in their respective areas. As on 31<sup>st</sup> March, 2014 the Company has 296 employees on its rolls.

#### **FUTURE OUTLOOK:**

The Company's performance, to a large extent, is influenced by national and international demand and supply position of products and raw materials and to a large extent their prices. Overall operations are expected to improve further in the years to come.

#### **CAUTIONARY STATEMENT:**

The statements describing the Company's outlook, estimates or predictions may be forward-looking statements based on certain assumptions of future events. Actual results may differ materially from those expressed or implied, since the Company's operations are influenced by external or internal factors. Your Company closely monitors all major developments likely to affect the operations and will respond to meet the potential threats and to gain from any possible opportunities.

It may be noted that your Company is always in the forefront and proactive in implementing environment protection measures.
